

HCCAPC: Strategic Direction 2006 – 2009

VISION

A responsive community that protects the rights of children, reduces child abuse and neglect and strengthens families to nurture their children.

MISSION

Our community-based service organization strengthens the capacity of families and communities to nurture healthy children through the provision of quality education and prevention programs. We reach out to at-risk families to enable them to access effectively existing community services to manage their lives. We strive for excellent service by being leaders within our community and through proactive actions.

MANDATE

To support, educate and advocate for quality of life for all families and children to reduce child abuse and neglect

To strengthen the capacity of families through inclusive, quality programs and services that respond to the needs of families in a holistic manner

To work collaboratively with community groups to mobilize resources and reach out to families and children to reduce child abuse and neglect.
